**Ex. 4 - CBI**

**Ex. 4 - CBI**

I have someone working on the location table for Scribe. We had collected GPS coordinates at each house, but it still needs some post-processing to account for duplicates, and actual sample locations. I was able to give him all the necessary files earlier today to complete the task. However he has training tomorrow, so it won't be until Friday before I get it.

We also have field screening information to upload to Scribe. I need to check on the status of this data stream. I plan to devote my time tomorrow to the Dimock Site. Today, I had to focus on a couple of my other projects.

Suda,

Do you know when you will be able to send us the location information?  
Do you have anything else that needs to be added to the project?

**Ex. 4 - CBI** has loaded some results and published to Scribe.net.

- John
